🎯 Cloud Developer

For more than ten years, first as a Full-Stack Software Engineer then as a Technical Lead and finally as Solutions Architect, I was able to learn about various functional domains (healthcare, banking/insurance...) while working with multiple technologies (Java, Angular, Node.js, Unix...).
In order to widen my skills around the lifecycle of application software, I took a position oriented around infrastructures in the Cloud, that I now wish to validate on other missions.

If it isn't documented, it doesn't exist

👨‍💻 Professional Experience

2022-07 to 2023-12 : Devoteam Revolve - IT Services

Cloud Consultant AWS

- Estimating, designing and developing features/fixes
- Producing, monitoring and maintaining Data oriented infrastructures on AWS

Customers - Domains

- Malakoff Humanis - Insurance

Environment

- J2EE, Angular, Python, Terraform, Git, Jenkins, Grafana, AWS (EC2, RDS, S3, Lambda, Athena, EKS...)
- 15 people

2019-01 to 2022-06 : Dedalus (ex-Inovelan) - Healthcare

Technical Lead then Solutions Architect

- Collecting and analyzing the requirements
- Designing solutions with the international partners and tracking their implementation
- Implementing development industrialization practices (Jira, documentation, code review...)
- Organizing brainstorms and continuous improvement practice workshops (process, POC, English...)
- Participating in presales, technical and functional designing workshops
- Conducting technical interviews

Environment

- J2EE, Angular, Node.js, REST, Git, HL7 FHIR, Drone CI, Docker, Unix, Agile (Scrum)
- 5 to 20 people

2010-11 to 2018-12 : Inetum (ex-GFI Informatique) - IT Services

Intern, Technical Analyst then Technical Lead

- Training and monitoring the team members
- Estimating, designing and developing features/fixes
- Quality control : PCI DSS/OWASP Top 10
- Managing development/testing environments
- Writing technical and functional documentation
- Backup project manager
- Conducting technical interviews

Customers - Domains

- Pacifica (Crédit Agricole) - Insurance
- Payline (Monext) - Web payment
- Metro Cash&Carry - Retail
- France Télécom (Orange) - Automation

Environment

- J2EE, Angular, Bash, SVN, Git, Unix, Agile (Scrum)
- 5 to 20 people

👨‍🎓 Education/Training

Certifications

2023-12 : Certificat de Connaissance Numérique Responsable

2023-04 : HashiCorp Certified: Terraform Associate (003)

2022-09 : AWS Certified Solutions Architect - Associate

Professionals

   2016-12 : Développement d'applications riches avec Angular 2 - Zénika

   2016-05 : AngularJS, maîtriser le Framework JavaScript de Google – Orsys

   2015-04 : OWASP, Sécurité des Applications - Advens

2009-01 to 2011-01 : D.U.T. Informatique - IUT A Lille 1

🎨 Interests

🚴 Cycling (utility, road, virtual & MTB)

📚 Personal Knowledge Management

🧼 Soap-making
